Conflict Minerals Declaration

D.C. Contactors - TEAM

“Conflict minerals” are defined by the Securities and Exchange Commission (SEC) as cassiterite, columbite-tantalite, wolframite, and gold, and their derivatives, which are limited to tin, tantalum and tungsten (also known as 3TG).

“DRC Conflict-free” minerals are those that do not directly or indirectly benefit armed groups from Conflict-Affected and High-Risk Areas (*“CAHRA”*), including the Democratic Republic of the Congo (*“DRC”*), the Central African Republic, South Sudan, Uganda, Rwanda, Burundi, Tanzania, Zambia and/or Angola.

Section 1502 of the *Dodd-Frank Financial Reform & Consumer Protection Act (“Dodd-Frank Act”)* requires public companies in the U.S. to disclose their use of tin, tungsten, tantalum and gold (3TGs) in their products and determine if they are *“DRC conflict-free”*.

Regulation (EU) 2017/821 of the European Parliament and of the Council of 17 May 2017 laying down supply chain *due diligence* obligations for Union importers of tin, tantalum and tungsten, their ores, and gold originating from *CAHRA*.

Ravioli Spa hereby declares:

- we are not importer as defined by Regulation (EU) 2017/821;
- we are not a U.S. stock company;
- Among the 3TG metals only tin (used for solder wire and in copper alloys) and gold (used for surface treatments) are intentionally added during the manufacturing process of RAVIOLI S.p.A. D.C. Contactors - TEAM;
- gold and tin are purchased from companies established in the EU, which are therefore subjected to the same due diligence obligations.
- we voluntarily fulfills due diligence obligations by asking our suppliers to fully comply with conflict minerals regulations.

Yours sincerely

Ing. Roberto Orlandi
